FASHION ILLUSTRATION + DESIGN
PORTFOLIO

CONCEPT COLLECTIONS

Sets of three fashion illustrations that are the seedlings of a much larger world.

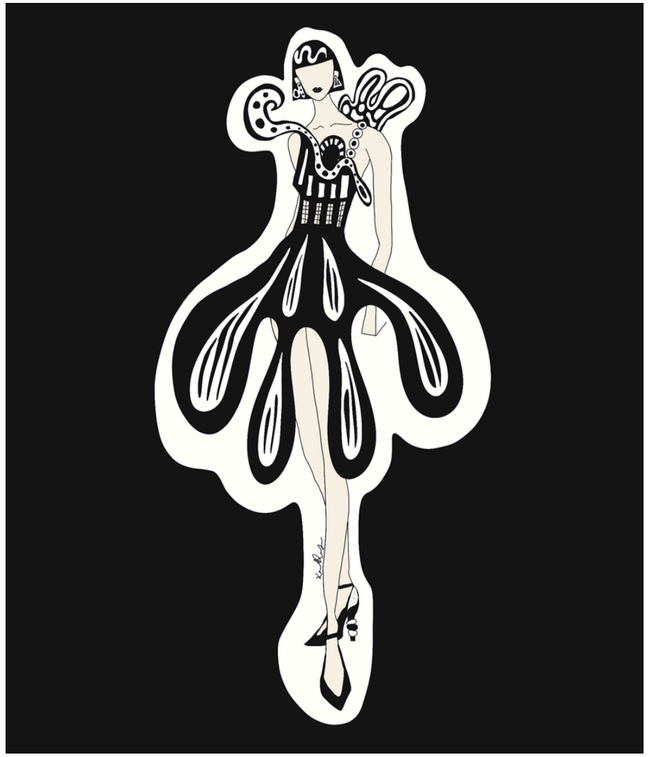

AN AR CHY

ANARCHY uses the bloody imagery woven into the fabric of each woman's story to create pieces that are simultaneously intricate, delicate, strong, and fluid.

INTER DIMEN SIONAL

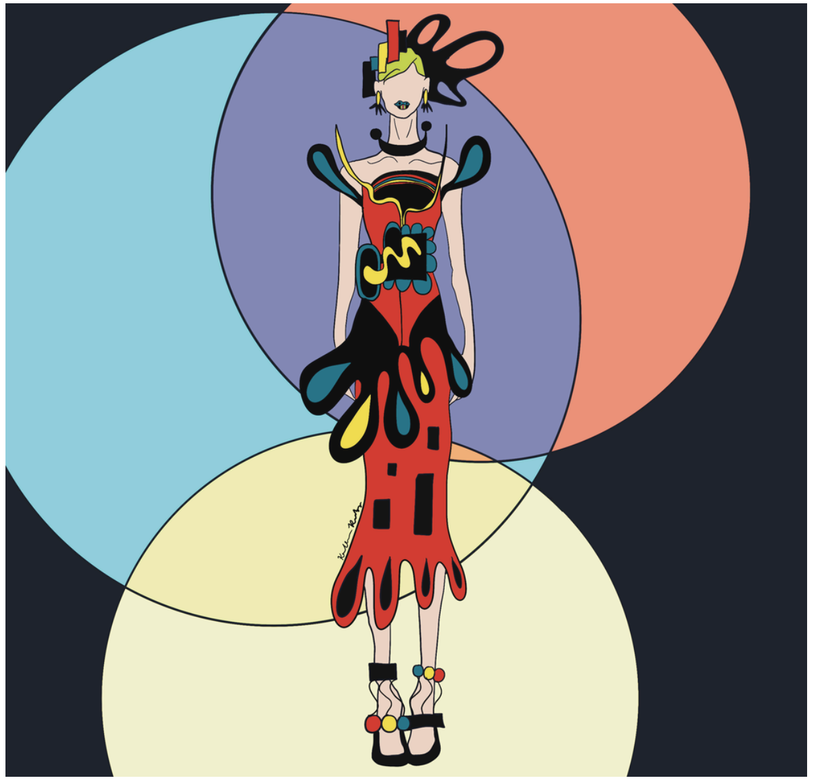

INTERDIMENSIONAL sews the fabric of time and space together, exploring themes of molding and shaping our own reality. The clothing emphasizes malleability—a stretching of what it means to create our own reality.

IN THEORY

A color theory and shape exploration.

Weird creatures from the beyond, inspired by monsters and myths.

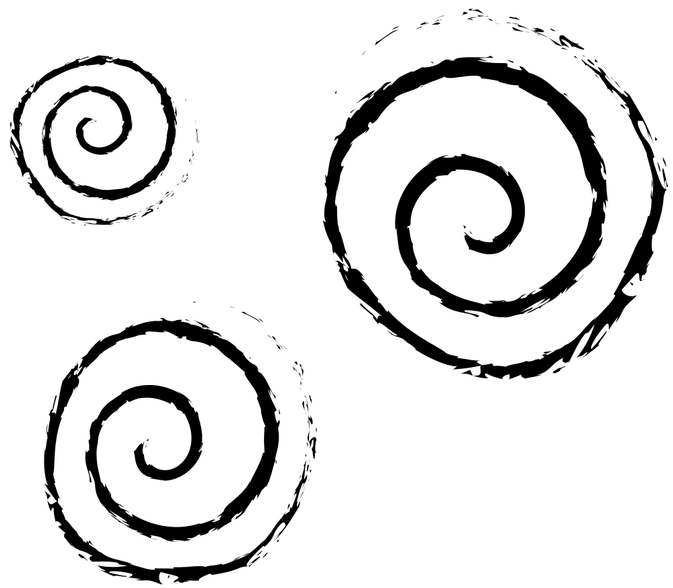

MYTH OS

A play on inkblot tests, and the psychology of pattern recognition in both sickness and in health.

PAT TERN RECOG NITION

CAPSULE COLLECTION
